About

Salesforce Administrator based in Cape Town, with hands-on experience configuring and optimizing CRM environments for real businesses — from building role hierarchies and custom profiles to automating workflows with Salesforce Flow. Through Life Choices Academy's YouthForce programme I moved from foundational coding (HTML, CSS, JavaScript, Vue.js) into Salesforce administration, and I now hold a Salesforce Certified Platform Administrator credential and over 100 Trailhead badges. My background as a 3D Generalist and compositor before that trained me to think in systems and design for how people actually use a tool — which shows up today in automations people trust and dashboards people read.
